Subject: IARC Monograph vol 112 Final deadlines and new articles

Dear all,

Many thanks for your participation in the teleconference yesterday! A recap plus an update on the literature:

1. Deadlines:

- All first drafts submitted before Monday 16 February
- All peer reviews completed by Friday 20 February
- All second drafts submitted before Monday 22 February.

All drafts will be distributed in hardcopy to the entire Working Group and all other attendees (representatives, invited specialists, representatives, observers and secretariat). I thank you in advance for your adherence to these deadlines.

2. New articles:

As you finalise your 1st/2nd drafts, please check on HAWC for newly identified articles (see “NEW” tag under Section 4 in each assessment). I’ve updated all the literature searches, and tagged any new relevant articles with the tag “NEW” plus any other relevant Section 4 tags. The toxicokinetic searches retrieved most “new” articles, but in fact some are quite ancient and must have been identified through new PubMed Mesh-tagging; sorry for this. Please use your best judgment on inclusion in the drafts.

3. Section 4.6— I have uploaded a Word file for you to further revise on IOPS, Section 4.6 of each monograph. Please further modify these files, or use the on-line table-builder tool here: <http://188.226.181.207/>

4. PDF requests— don’t hesitate with these as you finalise your efforts.

Thank you again,
Best regards,
Kate
